**Early Childhood 5-Year Plans**

- **District Plan**
- **Campus Plans**

### **Early Childhood Adopted Plan Purpose and Explanation**

House Bill 3 requires Texas school districts to craft, adopt, and monitor an Early Childhood plan that focuses on closing gaps within prekindergarten through third grade. This plan is a tool for districts to track and set targets for STAAR and progress monitoring in Literacy and Math in order to reach an end goal by June, 2024.

The core curriculum team and assistant superintendents went through a collaborative process of checking past trends and monitoring recent growth in order to set targets for each student group. The set targets are meant to close gaps while being attainable through upcoming professional development and new instructional resources made available to teachers.

Each campus also went through the same process to set targets for their students that align appropriately with the district goals and address specific areas of needed growth for their student population.

As new data is collected each year, the process will be repeated and targets will be adjusted in correlation with the most recent academic performance and needs for growth. This tool is meant to help districts get a jump start in closing gaps **before** students reach third grade.

## EC Literacy Targeted Professional Development Plan

Eastridge will have data dialogues over math and reading benchmarks and mCLASS data. We will utilize the components of mCLASS for Tier 1 and small group instruction. The instructional team will do curriculum walks and provide feedback based on the Amplify curriculum and mCLASS student needs. Reading Recovery teachers will continue to serve the lowest readers in first grade.

**PROFESSIONAL DEVELOPMENT RECOMMENDED:** All PreK through 3rd grade teachers will complete The Science of Reading Academies over the next three years. Eastridge is also sending 4th and 5th grade teachers through The Science of Reading Academies. Teachers will attend PLC training(s) through Solution Tree. For the 2021-2022 school year, we currently have 21 spots open with Solution Tree for PLC training.

## EC Literacy Targeted Professional Development Plan

Glenwood is participating in the Texas Reading Academy this year, as well as taking part in the PreK Phonics pilot. While in the Reading Academies, we have the support of our Texas Reading Academy Literacy coach, who is observing and coaching in all classrooms. We will intentionally extend the learning from the academies through Professional Learning Community meetings, vertical alignment, and restructuring our literacy teaching to align with our new learning. We will purchase additional decodable readers in both English and Spanish. We will continue to utilize the Really Great Reading Phonics programs, as well as iStation and RAZ Kids. In addition, we will fund supplemental Literacy tutors with campus Title I funds.

## EC Math Targeted Professional Development Plan

Glenwood is utilizing iStation Math as well as [freckle.com](https://www.ixl.com) and [prodigy.com](https://www.prodigy.com) to support both our in-person and out virtual learners. Classroom teachers use Number Talks and Numeracy activities to enhance our students' number sense. We support our teachers with Professional Learning Community data discussions, as well as vertical alignment of instruction and a school-wide problem solving model. We have tutors that support our students in math that are funded with campus Title I funds.

## EC Literacy Targeted Professional Development Plan

We will use a daily systematic and structured Phonics program purchased by the district. English and Spanish interventionist are hired to work with students who are identified as needing additional support in reading. Reading Recovery is offered to students who need additional reading intervention in 1st grade. Istation data and assignments are used to target specific skills where students need reinforcement in the foundations of reading.

# Humphrey's Highland Elementary

## Early Childhood Math Plan Campus Goal

The percent of 3rd grade students that score meets grade level or above on STAAR Math will increase from 44% to 60% by June 2024.

## EC Literacy Targeted Professional Development Plan

Lawndale PK-3rd grade teachers will participate in Reading Academy in 2021-2022 school year. Lawndale's data reflects low performance in K-3rd; in response to the data, the tutoring plans and schedules for 19-20 and 20-21 have and will continue to be focused on hierarchical foundational skills, i.e., phonemic awareness, letter knowledge, and alphabetic decoding in all grade levels in Istation. In addition, CAS is using data to assign student lessons in Istation based on individual need as well as providing ready-to-teach Istation skills lessons for teachers to intervene in small groups based on students' Istation cycles. By the end of 20/21 school year, all Lawndale teachers will attend a PLC at Work Institute in order to implement system of data collection, analysis, and respond within the framework of the 4 PLC questions.

PROFESSIONAL DEVELOPMENT RECOMMENDED: All PK through 3rd grade teachers will complete The

## EC Math Targeted Professional Development Plan

**Monitoring and Intervention:** Campus RTI plan will be based on monthly Istation ISIP results using table top lessons during RTI and teacher-assigned lessons online. CAS and teachers will administer RTI and intervention beginning second six weeks. A math tutor will be hired to support RTI and intervention.

**Strategies:** Campus will refocus on Number Talks and AVMR work and testing.

**PROFESSIONAL DEVELOPMENT RECOMMENDED:** All PreK through 3rd grade teachers will complete The Science of Reading Academies over the next three years. All teachers attend PLC at Work Institutes as well as develop instructional systems that answer the 4 PLC questions.

### EC Literacy Targeted Professional Development Plan

All PreK through 3rd grade teachers will participate in continued professional development of The Science of Teaching Reading over the next three years. Olsen is teaching our teachers how to look at I-Station data & MClass data to support students in making growth. Teachers are using Empowering Writers to support their learners in bridging their understanding of reading and writing. Olsen added additional tutors for response to intervention time to fill the gap with struggling sub-populations in all grade levels. Teachers are integrating technology/Canvas into daily lessons.

### EC Literacy Targeted Professional Development Plan

At Puckett Elementary some of the things that we are doing are detailed and data driven. We are tracking student progress with assessments and shifting instruction to fit those needs. We will continue to include skills we have learned as a campus for Closing the Achievement Gap. We will continue conversation as a campus during our PLC discussions. **PROFESSIONAL DEVELOPMENT RECOMMENDED: All K - 3rd grade** nce of Reading Academics and will continue to strengthen those skills.

### EC Literacy Targeted Professional Development Plan

Sleepy Hollow teachers will administer reading assessments for all students each 6 weeks to assess the appropriate reading level for instruction until achievement gaps or reading regression from COVID-19 are eliminated. Assessments may include, but are not limited to: running records/miscue analysis, formative assessments, and summative assessments. Addition of supplemental phonics curriculum adopted for PK-3rd grade to be implemented during the 2021-2022 school year, completion of 60 hour Texas Reading Academy Science of Teaching Reading course by 2023 for all K-3rd grade teachers to include job-embedded coaching throughout the school year, purchase of instructional resources aligned with the Science of Teaching Reading to include ongoing professional development for use in classrooms, as well as ongoing professional development in use of progress monitoring and assessment data in order to inform tiered instruction (mClass, Circle and Istation).

### EC Literacy Targeted Professional Development Plan

**We will strive to achieve an increase of 5% for grades 1-5 every six weeks on reading assessment scores entered into Eduphoria with an overall 90% or better on end of year assessments and/or STAAR. We will offer all students a challenging, high-quality ELAR curriculum and will provide research-based instruction to ensure an overall 90% or better success rate in reading scores as measured by IStation Overall or mClass by the end of 2021-2022 which will decrease the performance gap between sub-populations. We will identify and serve 1st-grade students who are eligible for Reading Recovery and qualify for at-risk. We will implement the science of teaching reading strategies in all classrooms to ensure student success with reading. In addition, we will weave newly learned Reading Academy strategies into instruction. We will intervene with students not on grade level due to COVID or otherwise in reading and/or writing through a structured and consistent RTI process including systematic scheduling of RTI. Two ELAR tutors will work with students who are at-risk and/or in need of additional intervention. We will use structured and systematic phonics daily with the use of a district-purchased program.**

# South Georgia Elementary

## Early Childhood Math Plan Campus Goal

**The percent of 3rd grade students that score meets grade level or above on STAAR Math will increase from 53% to 45% by June 2024.**

### EC Math Targeted Professional Development Plan

We will implement the Pre-K adoption for implementation in the 2021-2022 school year and purchase instructional resources aligned with Texas Essential Knowledge and Skills for Math to include ongoing professional development for use in classrooms and ongoing professional development in use of progress monitoring and assessment data in order to inform tiered instruction (Circle, Istation, and AVMR Numeracy). We will offer all students a challenging, high-quality Math curriculum and will provide research-based instruction to ensure an overall 90% or better success rate as measured by campus summative assessments, AVMR constructs, and STAAR assessments by the end of 2021-2022 which will decrease the performance gap between sub-populations. Every student in Kindergarten-2nd grade will be assessed using Add+Vantage Math testing throughout the year and offered additional math intervention as necessary. We will implement number talks and AVMR practice in all classrooms to ensure student success with math. We will intervene with students not on grade level due to COVID or otherwise in math through a structured and consistent RTI process including systematic scheduling of RTI. Two Math tutors will work with students who are at-risk and in need of additional intervention. The Math Recovery coach will assess and work with the at-risk math students in accordance with the Math Recovery program.

## EC Literacy Targeted Professional Development Plan

At Windsor Elementary some of the things that we are doing are detailed and driven data meetings that are driving our instruction. We are doing a book study on the book titled "Framework for Understanding Poverty: A Cognitive Approach" by Ruby Payne. We are doing this because our clientele at Windsor is changing and we need to understand how to meet those students needs while challenging them academically. We have also have a phonics adoption for grades K-3, while continuing our training in phonics for grades K-2. We use Istation data to help drive pieces of our instruction, and ongoing PLC's in grades K-3. All K through 3rd grade teachers completed The Science of Reading Academy this past 2021-2022 school year.

## EC Literacy Targeted Professional Development Plan

As we look at Tier 1 instruction, Empowering Writers, Really Great Reading and decodable texts are being implemented with fidelity. One of Wolflin's Campus Improvement Plan goals is to assign and intentionally monitor interventions for students. Kindergarten and first grade teachers are monitoring students through MClass. Reading interventions are being assigned after careful PLC conversations about class performance, MClass, and Istation. We are continuing to train teachers in decodable texts and we have revamped our spelling instruction. More resources for word play and vocabulary are being researched. Teachers in grade K-5 are attending all training offered for Empowering Writers to strengthen students' encoding skills.

## EC Math Targeted Professional Development Plan

There is a focused effort to train Early Childhood teachers in AVMR and Math Talks. We are continuing to target math interventions based on performance in class and Istation. We are exploring new interventions to assist students with math deficits. Vertical PLCs for K-2 and 3-5 occur monthly.
